## The Beit Project's Newsletter

001/2019

---

### A word from David

The human and urban adventure that began almost height years ago brings us today to a new step, a new communicative and sharing tool – a newsletter.

Nowadays, as the project takes places in so many cities (up to 15), The Beit Project succeeded in creating a community of engaged people, bringing together an impressive quantity of capacities, human and professional qualities.

This newsletter's objective is therefore to connect the different projects, to give voice to the

daily “miracles” achieved by local teams and to inform other people: new partners and regular collaborators, people sharing an interested in new pedagogical methods and other involved and convinced by the idea of "living together", people willing to fight against discriminations. Moreover, this newsletter hopes to connect people who want to hear about new effective pedagogical experiences, experiences that foster positive energies!

For all the above, many thanks to everyone who's been participating to this projects, all the persons in charge of the writing and editing process of this project, thank you to Lucie Donckier who's been coordinating it. I hope that the ambitious objectives of this new project (very ambitious, like everything we intend) will be largely surpassed!

În ciuda provocărilor întâlnite, elevii nu s-au dat bătăuți nici în fața ploii și nici a refuzului trecătorilor, de a participa ...
